[Verses]

**Em**      **C**            **G**                    **Bm**      **Em**  
I am a highwayman, on the road again  
**Em**                    **C**      **G**                    **Bm**            **Em**  
Me and my guitar, am a rambling band

**C**  
Looking in the wrong, standing in the blow  
Carrying on alone cause Iâ€™ll never gonna go my way **Em**

**C**  
Look up to the sky, cities flying by  
I donâ€™t wanna lie cause Iâ€™m pretty sure Iâ€™m gonna die one day **Em**

**Em**                    **G**                    **Bm**            **Em**  
So I say the road leads back to thee  
**C**                    **Bm**            **Em**  
It always leads back to thee

**G**                    **Bm**                    **C**                    **D**            **Em**  
How can I show my love so you will open your arms to me

So please wonâ€™t you tell me  
Where the road will end  
Got me a bottle  
As my only friend

Standing in the rain, dealing with the pain  
Everythingâ€™s the same and it doesnâ€™t really matter what I say  
Picking up the phone, come to take you home  
You will say no doubts, the reality of today

So I say the road leads back to thee  
It always leads back to thee  
Please wonâ€™t you understand that without you by my side  
Thereâ€™s no meaning

So will you ever love me again, only time will tell

Iâ€™m in a hurry, cause theyâ€™re waiting down in hell

And no matter what I say say or do  
The road lead back to youâ€™|
