Listen fellow people cause I ve got something to tell  
I was at this club, right, it was bad as hell  
I met this booty lady, she looked sharper than an eye  
I didn t know by then she d mess up my life  
I said you ve got to join me, where ever I may roll  
We jumped into a cab and headed for my home  
Well inside my room she worked on my erection  
All kind of drunk, horny, sloppy with protection  
One month later she calls me one day  
Telling me her period is late

Will I be a young dad  
Sit around in my flat with her  
I don t want to live that life  
So I stick to what i prefer

Story number two, folks, listen to me rhyme  
This girl was a Christian, damn she was fine  
We dated for a month steady giving me a boner  
But this dude Jesus really seemd to own her  
One time, the preacher out of sight  
Trying to make a move there but something wasn t right  
She said I want a marriage, and kids is that so strange  
Horny as a dog, I told her that could be arranged  
One month later she calls me one day  
Telling me her period is late

Will I be a young dad  
Sit around in my flat with her  
I don t want to live that life  
So I stick to what i prefer

Will I be a young dad  
Sit around in my flat with her  
I don t want to live that life  
So I stick to what i prefer

The essence of it all, folks, is about to pass my lips  
Think twice before you grab a lovely pair of hips  
Yet another thing that you need to bear in mind  
Wear a gimmy head or life might just treat you unkind

Will I be a young dad  
Sit around in my flat with her  
I don t want to live that life

So I stick to what i prefer

Will I be a young dad

Sit around in my flat with her

I don t want to live that life

So I stick to what i prefer
