## Pacific Coast Highway Hole

G I knew a boy who came from the sea G He was the only boy who ever knew the truth about me I m overwhelmed and undersexed Baby, what did you expect? I m overwrought and so disgraced I m too ashamed to show my face С G F And they re coming to take me away now What I want I ll never have F I m on the pacific coast highway with your gun in my hand I knew a boy who left me so ravaged G Do you even know the extent of the damage? My dirty little secret died in between the sheets G and the promises that killed me from your eyes I m bloody and so tightly bound I don t know what to do with my hands now I surrender, I give in I ll kick down your door if you don t let me in And I ve lost myself completely G I look to you my shooting star I m on the Pacific Coast Highway F Am

My God, how did you fall so far?

F Am G
Your whole world is in my hands
F Am G
Your whole wide world is in my hands
F Am G
Your whole world is in my hands
F Am G
Your whole world is in my hands
F Am G
Your whole wide world is in my hands
