C G

People like you fuck people like me

In order to avoid suffering

People like you fuck people like me

Fuck people like you

Fuck people like me

Fuck people like you

Fuck people like me

Leave the money by the bed

In the gutter where you live

And I ll throw it all away

And I ll throw in your face

And if you were in fire

I would just throw kerosene

Cause I love so much I hate

And I hate what you have seen in me, Samantha

(ritmo e acordes igual à *)

So you think that you could save him

And we know that someone died

Oh an unkindness of ravens

And we know that Mary lied

And through villages of ether

Oh my crucifixion comes

Will you sing my hallelujah?

Will you tell me when it?s time?

People like you fuck people like me

In order to avoid agony

People like you fuck people like me

In order to avoid suffering

People like you fuck people like me

Fuck people like you

Fuck people like me

Fuck people like you

Fuck people like me

Fuck people like you

Fuck people like me

Fuck people like you
