Verse: **C# - F# - G#**

Chorus: **F# - C#**

Letra:

Sittin' here all alone, I'm thinking of her  
I feel like a crap, cause she's not here as she was  
And all alone, I try to do something day after day  
But it's impossible cause she's now so far away  
Phone me girl, sendd a letter, contact me anyway  
I'm fucked up in my life, I gotta see her today  
Why she does it? Why does she do it with me?  
Now I'm feeling so bad, like i don't wanna be

She's the one I miss  
She's the one I want stay with  
I wanna see her  
And say I love you

I was so happy holding my girl but soon  
She disapeard, without a reson to  
I don't understand her, just don't understand,  
it's seems so estrange  
First she says something, but she won't do the same  
But she nows I love her she nows I'm waiting for her  
I hope she nows I'm crazy and so bored  
Without her my life is not the same  
She may be crazy too, she's making me insane
