

Gone Away From Me
Holly Williams

So this is really easy once you get the hang of it but it takes a little time to get the rhythm right.

You start on an Am for two beats then move the finger that s on the second fret of the D string up to the second fret of the A string for two beats (Amadd9). Then A regular C for two beats, then pull off on the D string for two beats (Csus2). I also like to pull off on the B string in the middle of playing the Fs in the verses.
