

**Gone Away From Me**  
**Holly Williams**

So this is really easy once you get the hang of it but it takes a little time to get the rhythm right.

You start on an Am for two beats then move the finger that s on the second fret of the D string up to the second fret of the A string for two beats (Amadd9). Then A regular C for two beats, then pull off on the D string for two beats (Csus2). I also like to pull off on the B string in the middle of playing the Fs in the verses.

```

E G#m B Amadd9 Bsus2 F#

B|-1---1---1-----1-----1---3--|
G|-2---2---0-----2-----0---0--|
D|-3---2---2-----0-----0---0--|
A|-3---0---3-----2-----3---2--|
E|-1---x---x-----x-----x---3--|
