Til It Runs Dry
Holly Williams

Capo on 1st

Intro - **Bbm Bbm | F# | C#** x 2
          C# C# C# C#

```
          Bbm                C#
Shoot the moon, hit the stars
        G#                      F#
Send my love running down the boulevard
        Bbm                C#
Hang my heart up on that line
        G#                F#                    C#
Let it beat  til it runs dry,  til it runs dry
```

C#

```
        Bbm                C#
Hot as hell, cold as ice
          G#                      F#
This Ferris wheel that they call life
        Bbm              F#
With a past I could erase,
                    C#-G#                F#
But I ll serve it up on a silver plate
                 C#
On a silver plate
```

```
        Bbm                C#
Hang my heart up on that line
        G#                F#
Let it beat  til it runs dry
                 C#
 Til it runs dry
```

```
        Bbm                  C#
In this world we all fall down
                G#                    F#
Like a pack of wolves in a dusty town
        Bbm                          F#
And we draw fast when the killing s done
          C# - G#                F#
Always too late, better on the run
               C#
Better on the run
```

```
        Bbm                     C#
Hang my heart up on that line
      G#                       F#
Let it beat  til it runs dry
        Bbm                     C#
Hang my heart up on that line
      G#                       F#
Let it beat  til it runs dry
                  C#
 Til it runs dry
```

```
        Bbm                     C#
Hang my heart up on that line
      G#                       F#
Let it beat  til it runs dry
        Bbm                     C#
Hang my heart up on that line
      G#                       F#
Let it beat  til it runs dry
```
