

**This Love This Hate**  
**Hollywood Undead**

Standard Tuning  
Capo 2

Hey hey, This makes the song slightly easier, because only 1 barre chord is needed instead of playing the main riff with a barre chord. (:

Intro: **G Em C D**

**G** **Em**  
In a time of need only few can see what s wrong  
**C** **D**  
millions tend to crawl but only those who choose can make it through this all,

**G** **Em**  
only few can sing like lions cause we sing until we re gone  
**C** **D**  
and weâ€™ve got each others backs until we re back where we belong,

**G** **Em**  
a woman held my shield and through the battle we did wrong,  
**C** **D**  
a man who taught me wisdom through the static we recall,

**G** **Em**  
and maybe when we re gone our names will echo through the stars,  
**C** **D** **Em**  
every start s got it s ending even when we ve learned to rise above it all,

**C** **D** **Em**  
These lies are leading me astray  
its too much for me to stay

**C** **D** **Em**  
I don t wanna live this destiny  
it goes on endlessly

**C** **D** **Em**  
I see you so please stay strong  
I ll sing you one last song  
and then I m gone

**C** **D** **Em**

I don t wanna live this destiny  
it goes on endlessly

And we once also had a story too  
you can see that good men only come in few.  
Even in our greatest moments we may win or we may lose  
every song s got it s rules, you ve got to learn to make it through.

Maybe one day we can choose how it feels to be a woman or a man  
without rules but burried underneath there s a picture glued.

So when my body burns in ashes only sing the truth  
Let these words strengthen all your views  
because these words were meant for you

These lies are leading me astray  
its too much for me to stay  
I don t wanna live this destiny  
it goes on endlessly

I see you so please stay strong  
I ll sing you one last song  
and then I m gone  
I don t wanna live this destiny  
it goes on endlessly

**C** **D** **Em**  
An now I m floatin right above my coffin as it closes I look down  
I see sigh as she s cryin on my moma s shoulder.

**C** **D** **Em**  
I look up into the sky as the gates to heaven open somethin s wrong  
is this destiny or am I goin home,

**C** **D** **Em**  
what will happen to my soul will I come back I don t know,  
will you meet me when its over let me know,

**C** **D**  
You can meet me here in heaven don t you ever let me go

**B**  
This love this hate is burning me away

These lies are leading me astray  
its too much for me to stay  
I don t wanna live this destiny  
it goes on endlessly

I see you so please stay strong  
I ll sing you one last song  
and then I m gone

I don t wanna live this destiny  
it goes on endlessly
