

**Angel Of Death
HoneyHoney**

Honey Honey
-Angel of Death-

tabbed by zdiggy

Capo 2

G **D** **G**
Floating on the wind until I find you

D **G**
I bury myself deep inside your heart

C
You won't feel a change

G **G/B** **E7**
We'll just become the same thing

Am7 **D7** **G**
And never spend a single day apart

G **D** **G**
Yes, I guess there have been many others

D
And yes, I've treated them the same as you

C
But quick I bled them dry

G **G/B** **E7**
And I licked the salty tears they cried

Am7 **D7** **G**
And many went from many to a few

C **G**
I'm the angel of death, babe, the end is near

D
Keep your hand on your chest

G
Don't let me whisper in your ear

C
It's best to keep on walking

G **G/B** **E7**
Lock the door when I come knocking

Am7 **D7** **G**
Mine's the voice you never want to hear

G **D** **G**
Maybe you'll be shocked by this admittance

D
Things are rarely ever what they seem

C **G** **G/F** **E7**

I don't mean you harm by my existence

Am7 **D7** **G**

Just let your tired eyes slip into dreams

(same as first chorus)

I'm the angel of death, babe, the end is near

Keep your hand on your chest

Don't let me whisper in your ear

It's best to keep on walking

Lock the door when I come knocking

Mine's the voice you never want to hear
