You can try to use G#m instead of G#dim but I m a theory freak and it bothers me to hear wrong chord so decide for yourself. I will admit G#dim is a hard chord esp. to hit as as you have to, so mess it with some. _____ Chords: A - x02220 or 577655**Bm** - x24432 **B** - x24442 **C#m** - x46654 **E** - 0221000
