

In My Drunken Head Honig

Intro: **Am** **Em** **F** **G** (x4)

Am **Em** **F** **G**
imagine this bubble burst
Am **Em** **F** **G**
sitting inside as the walls collapse
Am **Em** **F** **G**
imagine the look on your face
Am **Em** **F** **F** **G** **G** **G**
the moment you realize that itâ€™s not death itâ€™s the opposite

Am **Em**
youâ€™re leaving a paper trail
F **G**
wherever you go itâ€™s in some file
Am **Em**
you sleep in the waiting room
F **G**
but they got surveillance too
Am **Em**
you kneel on these hard wood pews
F **G**
somebodyâ€™s watching over you
Am **Em**
youâ€™re life is a neat little pile
F **(G)**
remember thereâ€™s someone at your side

F **G** **F** **G**
so try hard to see all the benefits
F **G** **F** **G**
and try not to leave while your heart still beats

Am **Em** **F** **G** (2x)

Am **Em**
and isnâ€™t it comforting
F **G**
to know what your pilot thinks
Am **Em**
to know that your house still stands
F **G**
to open your mouth and sing
Am **Em**

to hear you pick up the phone

to know youâ€™re still there when i put it down

to know that the world outside is cruel and is beautiful at the same time

and a dozen voices sing

in my drunken head again

and theyâ€™re drowned out by noise

theyâ€™re making building skyscrapers

theyâ€™re making building skyscrapers

theyâ€™re making building skyscrapers

they re making building...
