

Let You Know Acoustic
Hoobastank

Standard tuning I ve used for this, although I m not entirely sure as the version

I ve downloaded is a live acoustic one, the cd s upstairs, and I m feeling too lazy right now

Intro

```
|-----0-----|
|-----2-----2-----|
|-----4-----4---4---|
|---2-----|
|-2-----|
|-----|
```

Verse

```
|-----0-----7-----|
|-----4-----4---4-----10---10---10---|
|---4---4---4-----9-----9-----|
|-----|
|--2-----|
|----- played first time round
```

On the acoustic version I m listening to it sounds almost as though he s just strumming out some chords the second time round, then repeats both parts

```
| -2-----3-----0-----7-
|-4-----5-----0-----7-
|-4-----5-----7-----9-
|-4-----5-----7-----9-
|-2-----3-----5-----7-
|-----
```

that sounds almost the pregression used

Chorus

```
| -0-----2-
|-0-----2-
|-8-----2-
|-9-----7-7-7-----6-6-6-----4-
|-9-----7-7-7-----6-6-6-----4-
|-7-----5-5-5-----4-4-4-----2-
```

for the bridge part, pick out notes from the verse chords going backwards down the chords.

I think that s all, that song was tricky to work out, so no questions on how to pick the bridge or whatever, cos quite frankly I was frustrated by that point, but I think I did ok on some of the tab.
