Hi, this is my first tab as I haven't found any chords for this song on the net.  
Took it from the acoustic version on the new CD Is This The Day (2010)

hope you enjoy, any questions, let me know.

The chords go pretty much the same until the last bridge to the last chorus  
(wich I m not pretty sure of them):

**C** **Eb**  
I write your name in my breath on the window

**C** **Eb**  
Sit and watch as it fades away

**F** **G#** **Bb**  
The painful memories of the tears of yesterday

**C** **Eb**  
The sky is gold and grey

**C** **Eb**  
Just like it was when we both went our seperate ways

**F**  
And the rain won't wash away

**G#** **Bb**  
All the dirt of my mistakes

**C** **Eb**  
So I write your name in my breath on the window

**C** **Eb**  
Sit and watch as it fades away

**F** **G#** **Bb**  
The painful memories of the tears of yesterday

**C** **Eb**  
Defening sound of rain

**C Eb**

It s not enough to drown my thoughts So ease the pain

**F**

So instead I ll soak it in

**G# Bb**

While I stare outside again

**C Eb**

So I write your name in my breath on the window

**C Eb**

Sit and watch as it fades away

**F G# Bb**

The painful memories of the tears of yesterday

**C Eb**

I try so hard but I can t seem to let go

**C Eb**

I lost so much when you walked away

**F G# Bb**

The painful memories of the tears of yesterday

LAST BRIDGE

**F G#**

The sun just won t seem to come out

**F G#**

Now that you ve walked away

**Bb**

Now I cannot escape

**C#**

I cannot escape

**C**

The rain

**Eb**

The rain

**C Eb**

So I write your name in my breath on the window

**C Eb**
