

Breathe From Coma
Hopesfall

***I tabbed deciphered this song into Chord form today at work from memory. I know how to play the 2nd guitar parts and I will TAB them out when I have a guitar handy. But for now here is the chords. They are probably 80% accurate. I was working this up to play acoustically with my band. Like I said this is from memory and all comments are welcome at cops_eat_donuts@hotmail.com.

This is the first TAB I have seen for this song
