

**Small Melody**  
**Horse Feathers**

[Verse 1]

**Bm** **G**  
Deceivers they plot and sway  
**A** **D**  
Faster than you d believe  
**Bm** **G** **A**  
I take the time to read between the lines  
**D**  
Not received

[Verse 2]

**Bm** **G**  
If lovers should not compete  
**A** **D**  
Winners should not be loved  
**Bm** **G**  
I take the time to read between  
**A** **D**  
The lines I m speaking of

[Chorus]

**G** **D** **A**  
But we don t speak of what s to come  
**G** **D**  
We just run from what ails  
**A** **G**  
As we re minding our mouthes  
**D** **A**  
Blue baby queen  
**G**  
You run  
**D** **A**  
Every day and every night in between

**Bm G Bm G**

[Verse 3]

**Bm** **G**  
Not a single thing was lended  
**A** **D**  
Your karma s just been spent  
**Bm** **G**  
Here s the twenty dollars

**A**                          **D**  
For the jokes of yours I rent  
          **Bm**                          **G**  
The future does not exist  
          **A**                          **D**  
The clock it keeps on feeding  
**Bm**                          **G**  
Why is the time of our lives  
          **A**                          **D**  
Just a place that s not an Eden?

[Chorus]

**G**                          **D**                  **A**  
But we don t speak of what s to come  
          **G**                          **D**  
We just run from what ails  
          **A**                          **G**  
As we re minding our mouths  
          **D**                  **A**  
Blue baby queen  
**G**  
You run  
          **D**                          **A**  
Every day and every night in between

**Bm G Bm G**

[Bridge]

**D**                  **A**  
You were given less  
          **G**                          **Bm**  
Without the gall to ask for more  
          **D**                          **A**  
He laid it on the table  
          **G**                          **Bm**  
And your jaw was on the floor  
  
          **D**                          **A**  
Cause each and every day  
          **G**                          **Bm**  
I have lost my taste to pray  
          **D**                          **A**  
I refuse to pay the fines  
          **G**                          **Bm**  
To the place that we designed  
          **D**                          **A**  
In my sleep I grind my teeth  
          **D**                          **A**  
Holding back what s underneath

**G**

All this ice between the sheets
