

## Two Cripples Dancing Hot Cross

Tune half a step down.

Guitar 1 strums this chord every once in a while...

```
Eb|0|
Bb|0|
Gb|2|
Db|3|
Ab|3|
Eb|1|
```

...and after awhile Guitar 2 kicks in with this...

```
Eb|-----12-----10-----|
Bb|-----10h12-----10h12-----13p12-13p12|
Gb|10h12-----10h12-----|
Db|-----|
Ab|-----|
Eb|-----|
```

In the right speaker throughout the song, there s some guitar playing the same chord, but it s really distorted and hard to decipher, especially since I m tabbing this out on my acoustic. Try xx245x, it sounds alright...

During the last 30 seconds, a FOURTH guitar comes in and starts playing a chord. Plays xx2453, and sorta hit a few random notes in that chord.
