Intro:

G-D-Bm-A

Verse:

G	D	Bm	A
We had it all we were, young lovers, we were full of trust and faith			
We were dead set on makin it last forever, forever and a day.			
I recall it was fall last year when, it started to die.			
You stand still as the temperature kills, the summer strokes that were keeping it alive.			

Pre-chorus:

Em **G** **A** **Em** **G** **A**
The day got colder so I held you closer, in an effort to save us from time,
Almost like the wind came and ruined the spark and left us in the dark.

Chorus :

Bm D G
 But hey- I coulda told you that I loved you and stay,
 D A Bm
 around to rekindle the fire but I was late,
 D G
 on my return and now you ve lost all faith.
 D A
 And I am a liar,
 Em G D
 I m no longer what you require.

Verse:

See, I still feel you at night, turning in the sheets when I turn out the light
It s how it goes, the ghost of your first love wont ever leave you til the day
that you die

Pre-chorus:

I wont ever live down leaving her behind even if the choice was the right one
It was a good thing staring me right in the face but I turned and ran away.

Chorus:

I coulda told you that I loved you and stay,
around to rekindle the fire but I was late
on my return and now you ve lost all faith.
Cause I am a liar,
I m no longer what you require.
