```
She Says
Howie Day
[Intro]
Cadd9
         C
               Cmaj7 C
                                  Cadd9 C
                                                  Cmaj7 C
[Verse 1]
Cadd9
                Cmaj7
                          C
                                  Cadd9
                                            C
                                                    Cmaj7
                                                              C
             Asus2
                     Am
                              Asus4
                                        Am
                                                Cadd9
                                                         C
                                                                 Cmaj7
                                                                            C
Sweet is the sight
Of her room
Window open by candlelight
How would you know?
Cold winter on the shore
Chills the dress she wore
It s on the floor
Still it feels so warm today
[Chorus 1]
                               C
                  F
                          G
                                        Am
And that s why I m wondering why you had to tell me
                            Am
What s going on in your head, what s wrong,
                       Am
                                  F
                                           G
                                                      Asus2
Come around to another time when you don t have to run
And when she says she wants somebody else
I hope you know that she doesn t mean you and
When she breaks down and makes a sound
                                            Em F C Em F
 Am
You ll never hear her the way that I do
[Verse 2]
Swing into flight
Over hills
Over her hills, it s twilight
Yeah, I guess that s right now
While were here
Tell me why it s so funny
That you re so funny when you re mad
Always so mad so mad
[Chorus 2]
                                   C
And that s why I m wondering why you had to tell me
            C
                            Am
```

What s going on in your head, what s wrong,
