Intro: **B F#m E A**

B **G#m**
Steal a car on a dare
E
Dump it in the minow river
You think we re Bonnie and Clyde
B
But both of them fucking died
G#m
I think you re mid july
E
Smoke you in hot as a crack pipe
I wanna love you but we just fun
B
I know you kill me, and that s not right
G#m
Pretend that you can hold a gun
E
And I will pretend that you re the only one
I never shot it into your night
B
Just show me how to pick your locks
G#m
On the street I see you walking ahead
E
I take a picture of the back of your neck
I won t do it to myself again
I won t do it to myself again

B F#m E A(x2)

B **G#m**
I see you bend down matching a grave
E
But that s a very grave thing to say
Out of place, out of take
B
Maybe this is all a mistake
G#m
So this devil in me is you
E
This talk is a kind of glue
A black mass, a sick stab
B
Something that I didn t choose
