

**This Ones Different
Howler**

A **E**
I don t care what you said back then

B **A**
I just care what you say right now

E
When the feeling s there it s there

B **A**
When the feeling s gone it s gone

E
But for tonight I scream you re here

B **A**
For tonight I write this song

E
Put the pen on to the page

B **A**
Let the page scream along

A **E** **B**
I want you right now

A **E** **B**
I need you right now

A **E** **B**
I want you right now

A **E** **B**
I need you right now

A **E**
I hate the way I talk

B **A**
And I hate the way I write

E
Sometimes it s better to stay in bed

B **A**
Sometimes it s better to stay out all night

E
All said I could live without your touch

B **A**
If I could die within your reach

E
I see the daylight way too much

B
There s something I m happy to preach

A **E** **B**
I want you right now

A **E** **B**
I need you right now

A **E** **B**
I want you right now

A **E** **B**
I need you right now
