

Kiss Of Fire
Hugh Laurie

Tabbed by Madfer39

These are the chords for the album version.

It's Hugh's version of the Louis Armstrong song, which is at the same time, a version

from an Argentinian Tango called El Choclo by Ángel Villoldo.

As you might know, the first verses are sung in a mix of Spanish and Argentinian slang.

Standard Tuning. No capo needed.

Dm

Con este tango que es burla y compadrito

A7

Se ataca dos alas la ambición de mi suburbio;

Con este tango nació el tango, y como un grito

Dm A7

Sali del perdido barrial buscando el cielo;

Dm

Conjuro extraño de un amor hecho cadencia

D7

Gm

Que abrió caminos sin más ley que la esperanza,

Dm

Mezcla de rabia, de dolor, de fe, de ausencia

A7

Dm

Llorando en la inocencia de un ritmo juguetón.

C7

F

Por tu milagro de notas agoreras

C7

F

Nacieron, sin pensarlo, las paicas y las grelas,

A7

Dm

Luna de charcos, canyengue en las caderas

A7

Y un ansia fiera en la manera de querer...

Dm

I touch your lips and all at once the sparks go flying

A7

Those devil lips that know so well the art of lying

A7

And though I see the danger still the flame grows higher

A7

Dm

I know I must surrender to your kiss of fire

Dm
Just like a torch you set the soul within me burning
Dmaj Gm
I must go out along this road of no returning

And though it burns me and it turns me into ashes
A7 Dm
My whole world crashes without your kiss of fire
