This is my favourite song by Hunter Hayes, it s really beautiful.

CAPO 4

**C**

Well, I ve been searching for something true  
and my heart says it must be you  
I d love to fall and see it through  
but, only if you told me to

**C, F, C, F**

**C**

Well, I d run through the desert, I d walk through rain  
Get you into trouble and take all the blame  
I d paint you a picture, write you a song  
And I d do it all over if I did all wrong

**Am Em**

I don t wanna steal you away,

**F**

**G**

or make you change the things that you believe

**Am**

**Em**

I just wanna drink from the words you say,

**F**

**G**

and be everything you need

**F**

**G**

Yeah, I could be so good at loving you but,

**C**

only if you told me to

**C**

I ve seen a lot of good love go to waste  
and I don t wanna look back on these days  
knowing all the thing you d never know  
if I never said a word and let you go

**Am Em**

I don t wanna steal you away,

**F**

**G**

or make you change the things that you believe

**Am**

**Em**

I just wanna drink from the words you say,

**F**

**G**

and be everything you need

**F**

**G**

Yeah, I could be so good at loving you but,

**C**

only if you told me to

Yeah

**Am**

**Em**

I don t wanna steal you away,

**F**

**G**

or make you change the things that you believe

**Am**

**Em**

I just wanna drink from the words you say,

**F**

**G**

and be everything you need

**F**

**G**

Yeah, I could be so good at loving you but,

**C**

only if you told me to

**C**

Maybe, this is something I ll never be

but, I ll be right here until you tell me
