

Light Me Up
Hunter Hayes

G **D** **A**
I was a ferris wheel, in an empty field where nobody goes
G **D** **A**
Had all the curtains drawn, sitting all alone, feeling like a ghost
G **D** **A**
I was a broke down heart brake bad in need of
A little of loves electricity
G **D**
A busted carnival ride in the middle of the night
A (stop)
Then you flipped the switch, you turned on the show

Bm **D** **G**
You light me up, like fireworks flying on the fourth of July
Bm **D** **G**
You light me up, like the sunshine blazing in the summertime oh every time
Bm **D** **A**
You light me up
Bm **D** **A**
Baby you light me up
G **D** **A**
You were the missing piece to my broken dreams, bringing them back to life
G **D** **A**
You look like a movie star, just the way you are makes me burn inside
G **D** **A**
(stop)
Yeah its a dynamite finally burning a match, baby when you look at me like that

Bm **D** **G**
You light me up, like fireworks flying on the fourth of July
Bm **D** **G**
You light me up, like the sunshine blazing in the summertime oh every time
Bm **D** **A**
You light me up
Bm **D** **A**
Oh you light me up

Bm **D**
Like New York City on new years eve
A
You light me up
Bm **D** **A**
All my dark days left when you came to me

Bm **D** **G**
You light me up, like fireworks flying on the fourth of July
Bm **D** **G**
