

**Storm Warning**  
**Hunter Hayes**

standard tuning: no capo

the (**G**) chords are bar chords which is (E A D G B E)  
it makes the song sound better (3 5 5 4 3 3)  
but you can also play an open G

this is a variation from capo 2 which you can just replace: the A s for G s,  
the D s for C s, the F#m s for Em s, and the G s for F s

i personally like this version better because of my voice and i recommend  
it for people who have lower pitched voices

Ain t it funny how it feels  
 When you re burning your wheels  
 Somewhere between goin and gone  
 You get so lost that you can t turn it off  
 You give in and you just turn it on  
 She s a heart full of rain  
 Red lips like a flame  
 She s the girl from your favorite song

\*Buildup\*

What a beautiful mess  
 One part angel, one part perfect, one part brick  
 The kind of flood you ll never forget

\*Chorus\*

I m gonna wish I had a storm warning  
 I m gonna wish I had a sign  
 I m gonna wish I had a little heads up  
 Little lee-way, little more time  
 Some kind of radar system

 Some kind of radar system  
 Locked in on love!
