**E**                      **B**  
I think we ll never change  
**G#m**                      **F#**  
and our hearts will always separate.  
Forget about you  
I ll forget about you.  
The things we never say  
Are better often left alone.  
Forget about you  
I ll forget about this time.

But it s the same old situation  
We made it through this far.  
We watched the rockets kiss the sky.  
I saw the flames burn out in your eyes.

Nothing that I do  
Will ever be enough for you  
Whatever I do, whatever I do.  
Take me as I am  
I ll never be the other man.  
Forget about you  
I ll forget about this time.

So won t you save this conversation  
And find a better time?  
Don t you ever understand  
That if it hurts I ll do whatever I can?

And if it s set in motion  
I ll watch it all pass by.  
And leave the rest unspoken  
I ll never change my mind.

Leave it unspoken, leave it unspoken,  
Leave it unspoken, leave it unspoken now. (x4)

So just let me go  
I won t change my mind.  
I d rather be lonely  
Than be by your side.  
and nothing you say  
Could save us this time.  
I d rather be lonely.
