[Verse]

**Em G**  
I used to wonder  
**Am B\* C**  
round  
**Em**  
Like autumn leaves  
**G D**  
Rustlign on the ground  
**Em G**  
Trying to find my way  
**Am B\* C**  
Through this empty place  
**Em G D**  
Like thunder crashing without a sound

[Pre-Chorus]

**C**  
And though it s hard to say  
**Em**  
And though I lost my way  
**D**  
And though it s such a shame it took so long to feel this way  
**C**  
I didn t believe  
**Em**  
Just where I could be  
**D**  
If I d only seen that you were right in front of me

[Chorus]

**Em G Am**  
Sometimes you have to close your eyes  
**B\* C**

To find your way back home

**Em** **G** **D**  
Sometimes you have to close the blinds

**Em**  
To see just where to go

**G**  
When you're alone

**Am**  
All alone

**B\* C**  
Falling down, just move along

**Em** **G** **D**  
Sometimes when love is on your mind

**Em**  
You have to close your eyes

[Verse]

**Em** **G** **Am**  
The stars above are never gone

**B\* C**  
Even as the night

**Em** **G** **D**  
Loses light into the dawn

**Em**  
And though the shapes of the moon

**G**  
They can change, they can move

**Am** **B\* C**  
And the sun always shines in the dead of the night

**Em** **G**  
For you

**D**  
For you

[Pre-Chorus]

**C**  
And though it's hard to say

**Em**  
And though I lost my way

And though it's such a shame it took so long to feel this way

I didn't believe
