I used to wonder
Am B* C
round
            \mathbf{Em}
Like autumn leaves
Rustlign on the ground
          Em
Trying to find my way
             Am B* C
Through this empty place
                     G
Like thunder crashing without a sound
[Pre-Chorus]
C
And though it s hard to say
And though I lost my way
And though it s such a shame it took so long to feel this way
I didn t believe
\mathbf{E}\mathbf{m}
Just where I could be
If I d only seen that you were right in front of me
[Chorus]
                                  Am
```

Sometimes you have to close your eyes

B\* C

```
To find your way back home
Sometimes you have to close the blinds
To see just where to go
When you re alone
    Am
All alone
B* C
Falling down, just move along
               G
Sometimes when love is on your mind
You have to close your eyes
[Verse]
Em
                          Am
The stars above are never gone
    Even as the night
Em
     G
Loses light into the dawn
                 Em
And though the shapes of the moon
They can change, they can move
And the sun always shines in the dead of the night
For you
For you
[Pre-Chorus]
And though it s hard to say
And though I lost my way
And though it s such a shame it took so long to feel this way
I didn t believe
Just where I could be
If I d only seen that you were right in front of me
[Chorus]
Sometimes you have to close your eyes
To find your way back home
