

I can walk away

**F**

from these people whose ideas

**C E**

are just what other people say

(then slide E shape up and down 1 fret for 3 bars....)

**Am Am/C D**  
And the crowd that is gathered is confused

**F Am**  
weâ€™re all trembling inside - solitude

**Am Am/C D**  
we ve got nothing left to use

**F Am**  
we ve got all the bullets but there s no one left to shoot

**C C/B Am**  
We can t walk away

**F**

from these feelings that are filling up

**C**

our lives with daze

**C C/B Am**

We may have to stay

**F**

with these people whose ideas

**C**

**E**

are just what other people say

(then slide E shape up and down 1 fret for 3 bars....)

Can I again?

Repeat 1st verse slowly and quietly....

But if heaven is a place upon your skin  
that I may have touched from without to within  
will then dust yourself of fingerprints and grin  
and grin  
and grin

I guess that I ve been singing all my life  
well that s right  
and that is fine

I ve been spending all your money and your time  
well that s right  
and that is fine
