

Northern Skies

I Am Kloom

It's not perfect, but a good start...hope you like it

Capo 5

G
Above there are no stars tonight just northern skies

C
Reflected light upon your face

G
People think stars rule our lives,

Some people they think otherwise
C

They can be replaced.

Am **D**
Where did you go on that big black night?

Am **D**
Did you take the coast road back through your life?

Am **D**
See the sand, the moon, the stars that shine the light

C **G**
And say, well, they'll do all right for me.

G
We shroud our lives in mysteries,
C
Brooding skies and stormy seas, if we have any sense.

G
Storm clouds roll, they're free to break
C
And we're free to make the same mistakes again and again.

Am **D**
Where shall I go on those big, black nights?

Am **D**
Should I take the coast road back through my life?

Am **D**
See the sand, the moon, the stars that shine the light

C **G**
And say, well, they'll do all right for me.

Na na na na

G
Above there are no stars tonight, just northern skies

C
Reflected light on fields of snow.

G
Some people think stars rule our lives,

Some people they think otherwise

C
What does anybody know?

Am **D**
Where shall we go on those big, black nights?

Am **D**
Shall we take the coast road back through our lives?

Am **D**
See the sand, the moon, the stars that shine the light

C **G**
And say, well theyâ€™ll do all right for me.

Na na na na

Am **D**
Where shall I go on those big, black nights?

Am **D**
Should I take the coast road back through my life?

Am **D**
See the sand, the moon, the stars that shine the light

C **G**
And say, well, theyâ€™ll do all right for me?

Na na na na

G
See the stars and constellations,

G
Sit beneath their congregation.
