Shoeless
I Am Kloot

Shoeless - I Am Kloot
(from: Let It All In)

```
C#
Shoeless in your favourite dress,
    F#                                    C#
you walk the shore, the waves caress your feet.
                 G#
You don t really mind.

C#
Gaily on a garden swing,
    F#                                   C#
who dares to care what tomorrow brings
           G#
or leaves behind?

            Bbm7                     F#
Don t let the clouds clutter up your sky
        Bbm                         F#
Let the TVs turn off their weary eyes
    Bbm                     F#
for who are we, you and I,
                      G#
in all that and all this?

C#
Ceaseless are the hours you keep.
    F#
You ride the tides, the waves of sleep.
    C#                        G#
You meet yourself, how many times?

C#
May we walk the afternoons,
    F#                                   C#
the snows of winter, flowers of June,
            G#
each season s rhyme.

            Bbm7                       F#
Don t let the clouds clutter up your sky

         Bbm                               F#
Let the TVs turn off their weary eyes
     Bbm                   F#
for who are we, you and I,
                     G#
in all that and all this?

Ebm                          Bbm
Something lost came and found you,
Ebm                       Bbm
like the sea would surround you
        F#      F#m                             C#        G#
on the beach, throwing pebbles from the shore.

Ebm                    Bbm
I was lost when I found you.
Ebm                   Bbm
Is it me that surrounds you
           F#      F#m                             C#        B G#
while out of reach, throwing pebbles from the shore?

          Bbm7                       F#
Don t let the clouds clutter up your sky
        Bbm                          F#
Let the TVs turn off their weary eyes
     Bbm                   F#
for who are we, you and I,
                     G#
in all that and all this?
