Self Machine
I Blame Coco

I made this tab after I heard the acoustic version of the song. I basically play it with
chords.

Intro: **D**

```
        D                         G
I saw the mirror staring back at me
      A                B
And it told me I m a self machine
        D                         G
I saw the mirror staring back at me
       A                B
And it told me I m a self machine

          D
It said I gave you these scars
          G
And I gave you these wounds
   A
I told you the false
      B
And I showed you the truth

          D                       G
I saw the mirror staring back at me
       A                       B    D
And it told me I m a self machine

A    B    G        D
    Lonely robot in a wasteland
A                      D
rusting in a lonely harbor
A    B    G        D
    Lonely robot in a wasteland
A                       A
rusting in the harbor s water

          B           A        D
I m not a human if you say I m not
          B           A        D
I m not a human if my engines lock
          B           A        D
And this motor that you call my heart
          B           A        D
Is another machine that will stop
```

Same chords: **D**, **G**, **A**, **B**

And the impression of my self machine
The word was spoken and it was foreseen
Now we re too well too bothered in between
A pixel lost on the computer screen

A, **B**, **G**, **D**

Lonely robot in a wasteland
Rusting in a lonely harbor
Lonely robot in a wasteland
Rusting in the harbor s water

B, **A**, **D**
I m not a human if you say I m not
I m not a human if my engines lock
And this motor that you call my heart
Is another machine that wont stop

And then just strum the chords once in de bridge
A   **B**   **G**
Wait harbor, wait
D   **A**   **B**   **G**
Water still, water still
      A   **B**   **G**
And shake, the ground will shake
D   **A**   **B**   **G**
Out stand still, out stand still

Lonely robot in a wasteland
Rusting in a lonely harbor
Lonely robot in a wasteland
Rusting in the harbor s water

I m not a human if you say I m not
I m not a human if my engines lock
And this motor that you call my heart
Is another machine that won t stop

I m not a human if you say I m not
I m not a human if my engines lock
And this motor that you call my heart
Is another machine that won t stop
