

Tap Your Glass

iamamiwhoami

D

Tap your glass, let us see you unfold

G

Shall I tap my glass and give it my all

D

We could tap our glasses, let ourselves go now

D

Tap my glass, raise my voice

G

A

To call upon your attention

D

G

As it fills to the verge when full

A

G

It begs them for us all suspension

D/A

D/F#

Draw breath and let ourselves go

F#m

G

Through the dark veil s rolling floors

D/A D/F#

F#m G

And feel the salt slowly fill your throat

(Pre-refrão:)

A

Tap your glass, let us see you unfold

Shall I tap my glass and give it my all

C#m

G#m

We could tap our glasses, let ourselves go now

(Refrão:)

A

From the tide that s rising

Using all of my force

C#m

I form shapes on the sea

G#m

F#m

As she changes course

G#m

A

We are creating new islands

Now when the fray comes, swallow down all the salt

C#m

Coming down, we drown, we drown

G#m

We drown, yeah, ooh

(**A E**)

D **G**
Let the shallows of above forget us

A
Getting closer to the bottom

D **G**
Adventure of a life in the cold

A **G**
Never to be forgotten

D/A **D/F#**
Unless they want to let themselves go

F#m **G**
Unless they choose to be swallowed

D/A D/F# F#m G
Then the above will be visible

(Pre-refrão)

(Refrão)

(**A C#m G#m**)

(We are creating new islands!)

(Tide is rising!)

(We are creating new islands!)
