

Lulled By Numbers

IAMX

Am

Am F/A Asus C+/A

Am F/A

Who put the mess in your head?

Asus C+/A

Filtering the sense of all you could have said

Am F/A

Who stole the words from your mouth?

Asus C+/A

So twisted in contagion and reaching out

Am/F E7

If this is the lullaby then

Am C+/A

Why am I not sleeping easy?

Am/F E7

If you leave me alone, I will come home

Am C+/A

Dragging my tails behind me

Am

Sweetheart, don't hang me out to dry

F E7

When nothing is left

Am G

There is always us

F E7

When nothing is left

Am G

There is always us

Am

Am F/A

If I could sing you to sleep

Asus C+/A

Lay you down and pray that your soul to keep

Am F/A

I would be all that you need

Asus C+/A

Wider eyes oblivious to everything

Am/F E7

If this is the lullaby then

Am C+/A

Why am I not sleeping easy?

Am/F **E7**

If you leave me alone, I will come home

Am **C+/A**

Dragging my tails behind me

Am

Sweetheart, don't hang me out to dry

F **E7**

When nothing is left

Am **G**

There is always us

F **E7**

When nothing is left

Am **G**

There is always us

Am

Sweetheart, don't hang me out to dry

F **E7**

When nothing is left

Am **G**

There is always us

F **E7**

When nothing is left

Am **G**

There is always us

// I'm not very sure about the if this is the lullaby -part. The chords sound so up in the song, I tried to listen the original song and the live version of it but I couldn't it out. It could be like that.
