    You say love is what you put into it
G
    You say that I m losing my will
G
    Don t you know that you re all that I think about,
You make up a half of the whole?
G
    You say that it s hard to commit to it
G
   You say that it s hard standing still
G
    Don t you know that I spend all my nights,
Counting backwards the days til I m home?
If only New York wasn t so far away
I promise the city won t get in our way
               C
And when you re scared and alone
Just know that I m already home.
G
                     C
    I say that we re right in the heart of it
G
                C
                       G
    A love only we understand
