I m not sure this is 100% correct, but it sounds good.

Here goes:

| Part1:           | Part2:          |
|------------------|-----------------|
| -----            | -----           |
| -----            | -7-5-----5---   |
| -----            | -----7-5-----5- |
| ---5---5---7--5- | -----3h5-----   |
| -0---0---0---0-- | -----           |
| -----            | -----           |

Repeat through this:

On the very first decade that we got to dream in  
Our fathers were angry, our mother s were screamin  
At the clothes we were wearin and the music we got off on  
Hitler was dead, welcome to Babylon

|                                                    |          |           |          |          |          |
|----------------------------------------------------|----------|-----------|----------|----------|----------|
| <b>C</b>                                           | <b>G</b> |           |          |          |          |
| Carved our initials out across the sand            |          |           |          |          |          |
| <b>Am</b>                                          | <b>D</b> |           |          |          |          |
| The heart and the arrow, no-one understands        |          |           |          |          |          |
| <b>C</b>                                           | <b>G</b> |           |          |          |          |
| Then the tide rolled in and everything ran         |          |           |          |          |          |
| <b>C</b>                                           | <b>G</b> | <b>Am</b> | <b>F</b> | <b>C</b> | <b>G</b> |
| And washed us away, washed us away, washed us away |          |           |          |          |          |

Part1 **C F C F**

Up in the attic ambition was burning

Part1 **C F C F**

Now my fingers were bleedin but the tables were turning

Part1 **C F C F**

Down in the city the future was beckoning  
Part1  
And I hated myself on the day of reckoning

**C F C F**

(Oh yeah)  
Carved our initials on top of the cake  
The heart and the arrow - the rattle and the snake  
How was I to know that the Earth was gonna break  
And wash us away, wash us away, wash us away

**C** **C**  
Everything s temporary in this world  
**C** **C**  
Ain t it a shame when you lose someone  
**G5**  
Here tomorrow, gone today  
Wash us away, wash us away, wash us away

Play Intro Riff during this Verse:

There was never a fool like a young fool alone in  
A world without someone he can find a home in  
And for all the wrong reasons we rescued each other  
You bandaged my heart I never would recover **C F**  
(ohhhh)

**C** **G**  
No river runs true, it always takes a twist  
**Am** **D**  
Hearts can be broken, arrows gonna miss  
**C** **G**  
How was I to know that it was gonna come down to this

And wash us away  
And we wrote our names on the Dead Sea Scrolls  
The young and the restless, the brave and the bold  
How was we to know it was gonna get outta control  
**C** **G** **Am** **F** **C** **G**  
And wash us away, wash us away, wash us away, wash us away, wash us away, wash  
G---->  
us away, wash us away

**C F C F** x2
