Part1

C F C F

And I hated myself on the day of reckoning

(Oh yeah)

Carved our initials on top of the cake

The heart and the arrow - the rattle and the snake

How was I to know that the Earth was gonna break

And wash us away, wash us away, wash us away

C Everything s temporary in this world **C**

C Ain t it a shame when you lose someone **C**

G5

Here tomorrow, gone today

Wash us away, wash us away, wash us away

Play Intro Riff during this Verse:

There was never a fool like a young fool alone in

A world without someone he can find a home in

And for all the wrong reasons we rescued each other

You bandaged my heart I never would recover **C F**

(ohhhh)

C No river runs true, it always takes a twist **G**

Am Hearts can be broken, arrows gonna miss **D**

C How was I to know that it was gonna come down to this **G**

And wash us away

And we wrote our names on the Dead Sea Scrolls

The young and the restless, the brave and the bold

How was we to know it was gonna get outta control

C And wash us away, wash us away, wash us away, wash us away, wash us away, wash **G**

G---->

us away, wash us away
