I Would Have You
Ian Kelly

                         I would have you - Ian Kelly

Tabbed by: Jacques-Andre Langelier on 5/24/2011
Email: jake.langelier@gmail.com

Tuning: Standard

Heard from a live acoustic session on 98.5 fm s morning show with Paul Arcand

This might not be the CD version since it has not been released yet
Update, the signer released the lyrics on his website

***You can also play the song with capo 1

C#

C#   **F**
When I was very young
                               A#
I thought that life was long
                                   D#
Thought I would make it as a sargeant
                           C#
or as an athlete of great talent

                 F
And I decided then
                      A#
When Iâ€™ll become a man
                         D#
I will save earthâ€™s population
                        F#
Put all the vilains in a prison

                      A#
And there will be my name
                              D#
At the rock and roll Hall Of Fame
                          G#
I will only have world leaders
                          F#
Rocking out as my band members
                    A#
We ll open up for Rush

```
                  D#
I ll become such a lush
                              G#
But i will always have the greatest hangovers

Chorus:
C#                Am#
I would have you
                 Fm
I would have you
                 C#
As my only love

                 Am#
I would have you
                 Fm
I would have you
                 C#  -  Am#  -  Fm
As my only love

C#                          F
When i was just a boy
                            A#
My life was full of joy
                                  D#
And every new day was a great day
                            C#
And every love song had to be wrong

                       F
I thought nothing would affect me
                      A#
Our love would be my jet ski
                    D#
And I d wear you as an helmet
                           F#
You d always be there to protect me

                          A#
But we wouldn t end up in a castle
                     D#
I would not become an asshole
                              G#
I wouldn t stare at your mom s cleavage
                     C#
Pawn my ring or lose my courage

Chorus:
                Am#
```

```
I would have you
              Fm
I would have you
              C#
As my only love

              Am#
I would have you
              Fm
I would have you
              C# - Am# - Fm
As my only love
              C# - Am# - Fm
As my only love
          C# - F
My only love

Bridge:
F#                    A#
When I open up my drawers
                    F#
And everything is tidy
                   G#
You folded all my laundry
                        C#
So I know that you care about me

Chorus:
            Am#
I will have you
              Fm
I will have you
              C#
As my only love

              Am#
I will have you
              Fm
I will have you
              C# - Am# - Fm
As my only love
              C# - Am# - Fm
As my only love
```
