

What I Really Learned In Study Hall
Ice Nine Kills

[Verse 1]

C **G** **Am** **G**
Waking up right next to you, is the last thing that I want to do, knowing you
F
don't care.

C **G** **Am**
Cause you're spineless and too much to take. My kindness was a big mistake
G **F**
and it gets me nowhere.

C **G** **Am** **G**
And I've been reading through your letters, hoping that you'd never make up
F
your mind

C **G** **Am** **G** **F**
And I, I wish I was a boy again where I could still pretend you were mine

[Bridge 1]

Am **F** **Dm**
I'm drinking too much these days it never seems to help. Cause you say I'll
G
never change, and that I'm the only one who I care about when you say

[Chorus]

C **G** **Am**
That you're leaving and you're ready to go cause you thought I was cheating,
F **G** **C** **G**
but I don't think you want to know. Well I think that things are better this
Am **F** **G**
way, when it seems like you're breathing but you're already dead to me.

[Fill]

C, G, Am, F

[Verse 3]

C **G** **Am** **G**
Making up my mind on you is something I wish I could do but you're so damn
F **C** **G**
thoughtless and I'm not going to lose to any of these games you play. No one
Am **G** **F**
likes you anyway. You're just a faceless name

Am **F** **C** **G**
So what will you say when I tell you that your life's like a book. And it's
Am **F** **C** **G** **Am F C G**
torn and tattered sitting on a shelf where no one wants to look.
Am F C G

No one wants to look.

[Bridge 2]

Am **E** **Am**
And I m sure that this is what you want. As your face begins to haunt my
G
memories and seep into my future dreams, where no one can hear you scream.

[Chorus]

C **G** **Am**
That you re leaving and you re ready to go cause you thought I was cheating,
F **G** **C** **G**
but I don t think you want to know. Well I think that things are better this
Am **F**
way, when it seems like you re breathing but you re already dead to me.
