Do you still think about me?

Do do do,  
Do you,

Oh do you still think about me?

Oh Baby come on, you know I didn't mean that

You said you want a break,

Baby I don't wanna wait

What If I was to show up at your door?

When I think about us and what our love once was,

It's just something I can't ignore.

I'm falling behind myself, no I can't move on

We don't even speak anymore

I can't close my eyes, I'm up all night long And baby

I miss you more than before

It's been a long time since I've seen you

Oh I hope you didn't forget about me

You know your friends say that you're lonely

But what if I told you I was too?
