**Iglu And Hartly**

Intro **Dm F Am G**

**Dm**

Now heâ€™s got those stars in his eyes

**F**

Pulled down from the midnight sky

**Am**

And it aint gonna be like you thought it was

**G**

But it, could be like you make it now,

The Whole Song continues with those 4 cords in the same order, you can try practicing the song playing they re same chords

Shoulda please

Take a step back for me

What the hell did you come all the way down to be?

I know you donâ€™t see it

But I do

So keep on moving and Iâ€™ll walk with you

And we can zipcord across the sky

You and I

Now how hard do I have to try

To find somebody like me

Little more like me

Cuz I feel like giving up

We can zipcord across the sky

You and I

Now how hard do I have to try

To find somebody like me

Little more like me

Cuz I feel like giving up

(Chorus)

**Dm**

I wanna turn us all around

Now

**F**

Take a step down

**Am**

How can we all get along

**G**

When weâ€™re so violent and young?

Hold me back

I think Iâ€™m bout to blow  
Hit me here, then you know  
Itâ€™s not a question about getting the message  
Itâ€™s been a while since you been so progressive  
Lets, keep it in the crowd, amongst ourselves  
We the only mofuckas getting it and no one else  
So lets take the train  
Drive really far away  
We aint never gunna stop  
We aint never gunna stay  
We can zipcord across the sky  
You and I  
Now how hard do I have to try  
To find somebody like me  
Little more like me  
Cuz I feel like giving up  
We can zipcord across the sky  
You and I  
Now how hard do I have to try  
To find somebody like me  
Little more like me  
Cuz I feel like giving up

(Chorus)

I wanna turn us all around  
Now  
Take a step down  
How can we all get along  
When weâ€™re so violent and young?

I waved goodbye to a place where everybody knew my name  
Left my blue-eyed girl  
Starring out the window  
In the rain  
Told her when I met her  
That I had to hit the road  
Now I wish I never met her  
Cuz I cannot let her go  
Hearts break  
But thatâ€™s alright with me  
Cuz I only left room so I could ride with three  
And weâ€™re taking a trip  
We ainâ€™t turning around  
So please donâ€™t try to bring me down

We got bottles to hold  
Our motto is gold  
Never back down  
This aint easy so  
Get a nice grip  
And hold on for the ride  
If you canâ€™t take it  
Better jump for your life

And watch out and be ready to hurdle  
We got sharks around  
And theyâ€™re starting to circle  
All around my feet  
Theyâ€™re biting on my shoes  
Itâ€™s a little knick-knack  
And it all comes back

(Chorus)

I wanna turn us all around  
Now  
Take a step down  
How can we all get along  
When weâ€™re so violent and young?
