

Lay Your Weapons Down
Ilse DeLange

[Intro]

D#m B F# A#

[Verse]

D#m **B**
There s been a lot of miscommunication lately
F# **C#**
A lot of wait and see and too many maybes

D#m **B**

F# **C#**

And I wanna believe that your faith in me is as strong as it was when we thought
we d be unbreakable

D#m **B**
All the words we say end up distorted

F# **C#**

From skinbreak to heartache without warning

D#m **B**

F#
And you don t mean it and I don t either, we get so close to being defeated by
circumstance

C# **G#m** **B**

Do we stand a chance to rise above it all

G#m **B**

But I feel so small

[Chorus]

D#m

Lay your weapons down

B

And I ll take my armor off

F#

Say what we need to say

A#

And love before it s lost

D#m

Cause what we have is real

B

And real can hurt sometimes

F#

A#

But just because it hurts doesn t mean that we say goodbye

D#m

So lay your weapons down

B

Ooh

F#

Lay your weapons down

A#

Ooh

[Verse]

D#m

B

Feel so uncomfortable in this silence

F#

C#

Behind these invisible walls we build inside us

D#m

B

F#

So what s gonna give and what will it take for us to admit that we re both gonna
break if we stay right here

C#

Don t wanna stay right here

[Chorus]

D#m

Lay your weapons down

B

And I ll take my armor off

F#

Say what we need to say

A#

And love before it s lost

D#m

Cause what we have is real

B

And real can hurt sometimes

F#

A#

But just because it hurts doesn t mean that we say goodbye

D#m

So lay your weapons down

B

Ooh

F#

Lay your weapons down

A#

Ooh

D#m B F# A#

[Bridge]

G#m*

B*

I wanna rise above it all

D#m*

C#*

Will you hold me, just hold me

[Chorus]

D#m

And lay your weapons down

B

And I ll take my armor off

F#

Say what we need to say

A#

And love before it s lost

D#m

Cause what we have is real

B

And real can hurt sometimes

F#

A#

But just because it hurts doesn t mean that we say goodbye

D#m

So lay your weapons down

B

Ooh

C#m

Lay your weapons down

A#

Ooh

D#m

Lay your weapons down

B

Ooh

F#

Lay your weapons down

A#

Ooh
