A

As long as you are next to me

(the same as before)

Youre strong, its everything Im leaning on
Your hands, they keep pulling me along
if you show me I promise I am listening,
listen, listening
Feels crazy, but I think we are breaking ground
Feels love is something we have simply found
Lets put it somewhere we can keep it,
keep keep it, keep it safe
cause when Im holding on too tight
I am missing out on what is really there

Chorus:

I just want to feel like a ship on the ocean,
Flying like a bird, floating in the air,
We dont need to chase any destination, baby
We can end up anywhere
You can be the anchor that keeps me grounded,
You can be my song and a summer breeze,
We dont need to chase any destination, baby
Dont care where were going
