

dont care where were going

G

As long as you are next to me

(the same as before)

Youre strong, its everything Im leaning on

Your hands, they keep pulling me along

if you show me I promise I am listening,

listen, listening

Feels crazy, but I think we are breaking ground

Feels love is something we have simply found

Lets put it somewhere we can keep it,

keep keep it, keep it safe

cause when Im holding on too tight

I am missing out on what is really there

Chorus:

I just want to feel like a ship on the ocean,

Flying like a bird, floating in the air,

We dont need to chase any destination, baby

We can end up anywhere

You can be the anchor that keeps me grounded,

You can be my song and a summer breeze,

We dont need to chase any destination, baby

Dont care where were going
