

**Runaway**  
**Ilse DeLange**

[Intro]

**G A C**

[Verse 1]

**F** **G** **Am**  
You seem so different from everyone

**C**  
How you fooled me

**F** **G** **Am**  
Your heart was as here and gone as a loaded gun

**C** **F**  
Quickly fired the pain so deep

**G**  
No sign of healing

**Am** **C** **F**  
But I took our love so damn seriously

**G** **Am**  
Seriously

[Chorus]

**F**  
You re just a runaway

**G**  
I thought you d always stay

**Am** **G/B**  
But in a moment it got hotter

**C** **C/E** **F**  
Your heart was not as honest as I thought it d be

**C**  
Yeah, you swore to me

**Am**  
It takes an army to destroy us

**C** **C G F**  
But now all that I know is that I ll never change

**F**  
And you re just a runaway

N.C.

(Ohh)

[Verse 2]

**F** **G** **Am**  
I was as ready as I d ever been

**C**  
Open, hopeful, but I

**F** **G** **Am**  
I was torn and tossed to the deepest end

**C** **F**  
Of endless wishing that I was wrong  
**G**  
That you were better than what you showed me  
**Am C F**  
Keeps on messing with me  
**G Am**  
It s still messing with me

[Chorus]

**F**  
You re just a runaway  
**G**  
I thought you d always stay  
**Am G/B**  
But in a moment it got hotter  
**C C/E F**  
Your heart was not as honest as I thought it d be  
**C**  
Yeah, you swore to me  
**Am**  
It takes an army to destroy us  
**C C G F**  
But now all that I know is that I ll never change  
**F**  
And you re just a runaway

N.C  
(Ohh)

[Bridge]

**F**  
From the highest high  
**C**  
To the lowest low  
**F**  
If it s a runaway  
**C**  
You just gotta let him go

N.C  
Ohh

[Chorus]

**F**  
You re just a runaway  
**G**  
I thought you d always stay  
**Am G/B**  
But in a moment it got hotter  
**C C/E F**  
Your heart was not as honest as I thought it d be

**C**

Yeah, you swore to me

**Am**

It takes an army to destroy us

**C**

**C G F**

But now all that I know is that I ll never change

**C**

And you stay the same

**Am**

And it hurts to say

**F**

You re just a runaway

**Am**

(Ohh)
