Sun And Shadow
Ilse DeLange
[Intro]
Em G D C (x2)
[Verse 1]
Build walls and secret corners
Crying out in solitude
Storms come in without warning
Trying to black out my view
[Pre-Chorus]
                Am
You play your part in every story
               Αm
You re always in between the lines
You never wanna take the glory
[Chorus]
And when I fall, you fall too
But when I break, you break through
When my world s wreckened me
Em
You bring me back patiently
And I don t ever have to ask you
You don t ever have to ask me too
             Em
If I m afraid of anything
              D
It s me without you
          G
My sun and my shadow
My sun and my shadow
[Verse 2]
My heart a timebomb tickin
```

C

```
My mind a mind of its own
Em
As far as it drifts I won t be tricked
into thinking I could ever do this alone
[Chorus]
And when I fall, you fall too
But when I break, you break through
When my world s wreckened me
Em
You bring me back patiently
And I don t ever have to ask you
Em
You don t ever have to ask me too
           Em
If I m afraid of anything
It s me without you
My sun and my shadow
My sun and my shadow
You re everywhere I go
        G
My sun and my shadow
[Pre-Chorus]
             Am
Play your part in every story
You re always in between the lines
             Am
You never wanna take the glory
[Chorus]
And when I fall, you fall too
But when I break, you break through
When my world s wreckened me
You bring me back patiently
And I don t ever have to ask you
