Imagine Dragons

[Intro] C#m E A C#m

C#m E
In the dark and I m right on the middle mark just I m in the tear of
A C#m
Everything that rides bellow the surface
C#m E
And I watch from a distant seven-teen
A C#m
surely others dreams have been golden and untouched
C#m E
It s not just the pain here in my head there s so much there
A F#m B
Instead of all the colors that i saw

C#m E
We are all living in a dream
A
But life ain t as what it seems
C#m
Oh everything s a mess
C#m E
And all these sorrows i have seen
A
They lead me to believe
C#m
That everything s a mess

C#m E A C#m
I wanna dream, i wanna dream, leave me to dream
C#m E
In the eyes of the teenage christal eyes of the prettiest of
A C#m
lights that hang in the hallways of their home
C#m E
And the cries from the strangers out at night they don t keep us up at
A F#m B
Night we have the curtains strong and closed

C#m E
We are all living in a dream
A
But ask as what it seems
