

Under Your Wings Ill Hide
immanu el

Under Your Wings I ll Hide is not the ideal song for a lone guitar, when so much happening at the same time. But this could be used as a good start for you who like to improvise.

There is a melody in the chord A with A, Asus, Asus2, A. But you would need to listen to the song to make it easier for you.

A Asus2 A Asus A
Fire haunts us, holds us now.
A Asus2 A Asus A
Bright eyes still, hides us, takes us now.
A
Still spins us wild

A* Improvise through the chord.

A E F#m

D E F#m A
Sweet voice calls us
D E F#m A (Asus Asus2 Asus A)
When black face chase us

A A*

They take us now

A (/B /C# /D /E /D /C# /B /A)

Under your wings I ll hide x2

A

It s a bit messy at the end of the song. But the base-tones in the parentheses
is a tip

if you want something to happen at the end...
