Bridge
Big trouble losing control,
Primary resistance at a critical low,
On the double gotta get a hold,
Point of no return one second to go,
No response on any level, red alert this vessels under siege,
Total overload, systems down, they ve got control,
There s no way out, we are surrounded,
Give in, give in and relish every minute of it
Freeze, awake here forever,
                                          D
I feel a weakness coming on.
Chorus
