        G#m; C#, D#m

D#m
You know where to find me
                            G#
When youâ€™re on your way out
      D#m
All bustle and busy
    C#   **B**
Enough is enough
                            F#
Because lifeâ€™s sweet assemblages
    E   **D#m** **B**
Equate to driftwood away
                F#
Be still with me

D#m
You know where to find me
                            G#
For no particular reason
          D#m
To stop traffic behavior
            C#   **B**
Or to get something off your chest
                F#
Cause we go a long way back
  E   **D#m** **B**
Back to nothing at all
                            D#m
Mmmmm Be still with me

G#m

```
Oh-oh-ohhhhhhh
          B
Won't you be
               F#
Be still with me

D#m

D#m
You know where to find me
                     B
If you think it's all over
       D#m
I can sense it a mile off
                  B
It's no friendly hello
             F#
You could be screaming drunk
      E                    D#m
Well I've got my bad days too
           B
I'm gonna be here for you
             D#m
Be still with me

     B                              D#m
In a public place, private thoughts
                         B
A reminder of a precious loss

(you can be a source of constant reassurance)
D#m
Let the breeze block sadness drop
